Talal Nasir, Software Engineer

Rawalpindi, Pakistan, +923405780038, talalmughal47@gmail.com

PROFILE

A creative thinker, adept in software development. I enjoy working closely with design teams to precisely translate their designs right down to the last pixel, bringing the process to life just as they intended them to be, while developing the back-end functionalities at their finest.

EMPLOYMENT HISTORY

Aug 2023 — Present

Frontend Engineer, Webook.com
KSA (Remote)

Webook.com is a next gen digital booking platform & marketplace for sports, entertainment and tourism. Crafted top-notch projects like FIFA Club World Cup, Misk Foundation, World Combat Games, and much more. Creating lifelike interfaces with complex features and functionalities, with sole responsibility.

Tech Stack: TypeScript, NextJS, TanStack, Tailwind CSS.

Jan 2022 — Jul 2023

Software Engineer, AuraSide, Inc.
USA (Remote)

Gaming oriented and product-based company that develops tools for gamer. Responsibilities included delivering high-quality code, from converting design mock-ups to user interfaces, maintaining database, creating API endpoints, and integration of front-end and back-end.

Tech Stack: TypeScript, NextJS, NestJS, ElectronJS, Tailwind CSS, PostgreSQL, NGROK.

Sep 2022 — Feb 2023

Full Stack Developer, CodeJunkie
Islamabad

Award winning - service based IT agency that worked on multiple projects from around the globe. My duties here comprised of developing and deploying websites from scratch, contributing to existing systems, and maintaining a mobile application making new features.

Tech Stack: JavaScript, NextJS, ReactJS, ReactNative, Firebase, GCP, CI/CD, Tailwind CSS.

Mar 2020 — Present

Freelancing

I have created an abundant of projects from a variety of niches during my freelancing period. My work ranges from making AR apps, web-scrapping, image classification, data structures, text fromvoice recognition, etc.

Tech Stack: Unity, Python, Selenium, AR Foundation, C#, C++, NextJS, ReactJS, Firebase.

Jun 2021 — Aug 2021

Back-end Internee, Funavry Technologies
Islamabad

Funavry Technologies offers software services to global businesses. They helped us getting exposure to the IT market and hands-on experience. It wasa summers internship during my Bachelor's degree.

Tech Stack: ExpressJS, NodeJS, MySQL.

EDUCATION

Feb 2018 — Jan 2022

Bachelors in Computer Science, COMSATS University
Islamabad
